DESCRIPTION

An exciting opportunity has arisen to join our growing Employment Support Service. We are a passionate and dedicated Somerset wide team, supporting those who want to find or retain work and are accessing secondary mental health services. We provide evidence based interventions and follow best practice guidance from the Centre for Mental Health.

We strongly believe employment that suits an individual is integral to their recovery and we are looking for a registered mental health professional, who shares this belief.

The protection and retention individual's employment is a key priority for this specialist role, but it may also include assisting people to search for new work. You will have excellent communication skills, allowing you to work sensitively with clients and their employers, providing a health focused / problem solving approach.
