DESCRIPTION

About Monese At Monese, we make it easy to manage your money – wherever you are in the world. We create financial freedom for all of us that live, work, travel, study or send money abroad. We're the mobile app alternative to the banks, offering money accounts you can open instantly. We're here for everyone, not just for those with perfect credit scores or the right set of utility bills. With over 2 million sign-ups across 31 countries, we've been named 'Best Challenger Bank' in Europe. We push the boundaries every day, and we're looking to find the right people to join us on our mission. About the role: Designing the payment flows in the e-money ledger and related safeguarding flows to make most efficient use of the capital and meet the regulatory requirements Supporting the design of processes and procedures around compliant and efficient safeguarding requirement Designing the reconciliation models/processes for the core ledger and all the partner payment flows Setting up the reporting processes and data collection around the financial and regulatory reporting Building models and strategies to forecast and manage EMI capital requirements and operational liquidity at all our partners Scoping and evaluating treasury requirements for any new product integration and ensuring these are met by the product Conducting and building quality controls

Lead Treasury Analyst: EMoney and Payments**Price £0**
