DESCRIPTION

Job Category: Manufacturing/Surveying Job Location: Lowestoft, Suffolk, United Kingdom

How you fancy working for a Suffolk manufacturer who are without doubt a local success story having won some major new projects despite the pandemic? Do you want to work hard, have your efforts recognised and then be given the chance to move up the career ladder? Working as a Toolroom/Production Operative within the factory, you will be fully trained to handle and operate a selection of tools and machinery in order to carry out your job effectively. This company really do look to promote from within where possible. What matters most to them is someone's attitude to their work and someone who has a really proactive outlook. They like people who show can show initiative, can think on their feet and generally people who they know will do their best when they're on site. We have a day shift and a night shift available and the pay is above the market rate locally. They work very attractive hours too so worklife balance will be a given. There are immediate starts available so if you would like to hear more call Jenny at Select Appointments or apply using the appropriate link
