**DESCRIPTION**

**Full Description:** Are you a Skilled Maintenance Engineer? (Electrically bias with 18th edition)

- Looking to work a day shift only?
- Live in or commutable distance to Blackpool?
- Experienced in working in a Manufacturing environment?

If you have answered "yes" to the above questions then this role could be for you.

I am working with an international company with a manufacturing facility in Blackpool looking for a Maintenance Engineer to join their team of Engineers.

You will be required to carry out planned and reactive maintenance on machinery.

Other duties include; working on a range of different activities and projects supporting the manufacturing department. The role will include specifying new equipment and plant installations as well as the provision of a preventative and breakdown maintenance service covering a wide range of plant and equipment.

SALARY will be dependant on experience and competitive

Successful candidates that apply will be called and given additional information on the job and the company
