**DESCRIPTION**

Our client is refreshing and updating their Web and Mobile Apps ensuring consistency throughout their large online presence. The contractor will need to work in an Agile environment alongside a Technical Lead and a UX designer to help with the Front End Development. The client is looking for strong HTML, CSS, Javascript experience. This needs to be paired with great React knowledge with the ability to build react components confidently. You must also have a good understanding of how UI should be built and managed. This is a Senior role in regards to experience and ability and does not include any management or leadership Rullion celebrates and supports diversity and is committed to ensuring equal opportunities for both employees and applicants.
