DESCRIPTION

- Analyst, Regulatory & Risk Consulting (20000811) Analyst, Regulatory & Risk Consulting(Job Number: 20000811) Description

Our professionals balance analytical skills, deep market insight and independence to deliver solid, defensible analysis and practical advice to our clients. As an organization, we think globally. We create transparency in an opaque world, and we encourage our people to do the same. That means when you take your place on our team, you'll discover a supportive and collaborative work environment that empowers you to excel. If you're ready to share your perspective with the world, then you can make a real impact here. This is the Duff & Phelps difference.

Duff & Phelps' risk consulting practice provides a range of risk management services to support financial services firms. We are looking for an Analyst to join our fast-growing, dynamic and entrepreneurial team based in London.

At Duff & Phelps, your work will help protect, restore and maximize value for our clients.

RESPONSIBILITIES:

As an Analyst within our expanding team, you will gain exposure to exciting fund structures and risk projects from day one. Being part of a specialist group, but within a truly global firm, means your personal impact will be instant and supported by a full service professional services firm and a global network of experts.

Daily production, analysis and distribution of Risk reports.

Liaising with business lines, external risk system providers and clients.

Manipulate and analyse data on a day to day basis.

Troubleshoot various risk tools and related processes.

Analyst, Regulatory & Risk Consulting**Price £0**

Support the onboarding of new funds, security types and products.

Take part in enhancing the current system, testing of new models and modules and new solutions.

Support the Ireland and Luxembourg offices on specific tasks and projects.

REQUIREMENTS:

University degree in finance or relevant business experience. Working towards a professional degree (e.g. CFA, FRM) is considered as an advantage but not mandatory.

Previous experience or educational background in financial sector.

Experience in Microsoft office, specifically Excel.

Strong analytical skills combined with an ability to work on multiple projects simultaneously in a dynamic environment with a can-do attitude.

Any experience with Bloomberg/MSCI RiskMetrics or any other risk management tool would be beneficial.

Knowledge of common asset classes

Strong communication skills.

Fit with the firm's culture of inclusion, collaboration, accountability and collegiality.

In order to be considered for a position at Duff & Phelps, you must formally apply via careers.duffandphelps.jobs

Duff & Phelps is committed to equal opportunity and diversity, and recruits people based on merit.
